# Why Is It Worth Introducing viGO! HoReCa Products into Your Offer?

## Product Advantages of the viGO! Brand

### 1. viGO! Brand – Recognizable and Trustworthy

- Already present in the consumer segment, which increases trust among professional users.
- Perceived positively as a solid, affordable, and reliable brand.

### 2. Professional Quality Tailored to the HoReCa Industry

- Strong, durable raw materials with enhanced technical parameters.
- Optimal roll widths and lengths, adapted to professional catering equipment.
- Stable, consistent quality – crucial for professional customers.

### 3. Universal Use – A Wide Range of Customers

- Gastronomy, catering, bakeries, hotels, canteens, food trucks, and retail outlets with in-house production (products directly from the manufacturer).
- Products that “work” across many categories: baking, storage, food preparation, and packaging for takeaway meals.

### 4. Cost-Effective Packaging Designed for the Professional Market

- Large, high-performance rolls and high-capacity packaging tailored to the specific needs of gastronomy.
- XXL packaging reduces purchase frequency and roll replacement for B2B customers.

### 5. Clear, Professional Communication and Packaging

- Packaging designed to clearly communicate product purpose in the HoReCa sector.
- Facilitates shelf management and shortens purchasing decision time.

## A Complete Professional Line – The viGO! Brand Offer

### 1. Attractive Margins and High Product Turnover

- Low-cost products sold in large volumes guarantee stable turnover directly from the manufacturer.
- Opportunity to build additional margins on premium variants (thicker foil, larger rolls).

### 2. Wide Portfolio Enabling a Complete HoReCa Shelf Setup

- Aluminum foils, cling films, baking papers, zip-lock bags, roasting bags – all within one consistent brand, with the option to order MIX pallets.
- Simplifies category management and minimizes logistics costs.

### 3. Cost Optimization for Retail Chains

- Attractive purchase prices enable the creation of a competitive offer, also as an alternative to more expensive brands.
- Lightweight products that are easy to store – low logistics loss.

### 4. Stable Supply and Production Flexibility

- Ability to customize specifications to network needs (weight, length, width).
- Short lead times and high stock availability (subject to meeting MOQ).

### 5. Opportunity for Joint Promotional Activities

- Cross-promotions with departments: meat, vegetables, ready meals, bakery, deli.
- High effectiveness of seasonal promotions (grilling season, holidays, holiday catering).

## A Dynamic Market – Trends Driving Sales

### 1. Growing Importance of the “On-the-Go” and Takeaway Segment

- viGO! provides products that support a key trend in gastronomy and retail.
- Essential for in-store production points in retail chains.

### 2. Strong and Growing Demand in the HoReCa Segment

- Consumable products (foils, papers, bags) feature high turnover and repeat purchase rates.
- Growth of the gastronomy and catering market generates steady, predictable demand.

# ALUMINUM FOILS

## HoReCa Industry

### **Aluminum foil is an essential product in professional gastronomy:**

- packaging and securing takeaway meals and catering orders,
- maintaining food temperature during transport,
- baking, grilling, and reheating dishes,
- wrapping meat, fish, vegetables, and semi-finished products,
- storing food in cold rooms and refrigerators,
- securing GN containers and catering trays,
- protecting food from drying out and odor transfer.

**Benefits for gastronomy: high efficiency, workplace hygiene, time and cost savings.**

## Retail Customers / Retail Chains

### **A universal product for everyday household use:**

- storing food in the refrigerator and freezer,
- baking dishes in the oven,
- grilling and preparing seasonal meals,
- packing sandwiches, snacks, and takeaway meals,
- protecting food from drying out,
- preventing odor transfer.

**Why customers buy it: versatility, convenience, reliability, and an excellent price-to-quantity ratio.**

# viGO! Aluminum foil 29 cm

| STOCK NUMBER | NAME                          | UNITS PER CARTON | UNIT EAN      |
|--------------|-------------------------------|------------------|---------------|
| 7514120      | viGO! Aluminum foil 29cm roll | 9                | 5902841453593 |

viGO! Aluminum Foil is a reliable essential for every professional kitchen - from restaurants and hotels, to catering services and food outlets. Designed for intensive daily use, it ensures full convenience in the kitchen and versatility in application.

Key benefits for the foodservice industry:

- Versatile use – perfect for wrapping sandwiches and snacks, baking, braising, reheating, and storing ready meals. It is also ideal for freezing semi-prepared ingredients and protecting food in cold storage.
- Maintains food quality – preserves aroma and moisture. Dishes prepared in foil cook evenly, do not stick, and retain their natural taste and nutritional value.
- Hygienic and time-saving – foil helps keep kitchen equipment clean. It reduces oven, grill, and GN container contamination, shortening cleaning time and increasing work efficiency.
- Practical 29 cm width – fits most ovens and kitchen appliances used in foodservice, as well as for packaging takeaway meals.

viGO! products are durable, convenient, and professional solutions that enhance kitchen ergonomics while maintaining the quality of served dishes. Perfect for any business in the HoReCa sector.

# BAKING PAPERS

## HoReCa Sector

### **Baking paper is an essential tool in a professional kitchen:**

- Baking cakes, cookies, bread, and desserts
- Preparing meats, fish, and vegetables in the oven
- Lining trays, molds, and gastronomic containers
- Preventing food from sticking and burning
- Quick portioning and meal preparation
- Keeping kitchen equipment clean
- Streamlining work in batch production

**Benefits for the foodservice industry: time-saving, reduced use of fats, easy cleaning.**

## Retail Customers / Supermarket Chains

### **A versatile product for everyday cooking and baking at home:**

- Baking cakes, cookies, and pizza
- Preparing dishes without added fat
- Lining baking trays and molds
- Protecting the oven from dirt
- Easy removal of finished baked goods
- Convenient portioning with sheets or adjustable lengths from the roll

**Why customers buy it: convenience, cleanliness, healthier cooking, and reliable baking results.**

# viGO! Baking paper brown 30 m 29 cm

Professional viGO! Cling Film supports intensive work in the foodservice industry by making packaging and storage of products easier while maintaining their freshness and quality.

## Key Advantages:

- Versatile – suitable for manual and semi-automatic packaging, ideal for restaurants, hotels, catering services, and cafés.
- Easy to use – unwinds smoothly from the roll, with a factory-rolled starting edge for quick, waste-free use.
- Protection and sealing – flexible and self-adhesive, conforms to products, dishes, and containers, protecting against drying out, loss of aroma, and contamination.
- Efficient organization – supports kitchen workflows, reduces ingredient waste, and streamlines daily processes.

viGO! Cling Film is a practical and professional solution that preserves food freshness and ensures the quality of served dishes and semi-prepared products in every commercial kitchen.

# BAKING SLEEVES

## HoReCa Sector

### **Baking sleeves are a practical solution in professional kitchens:**

- Roasting meats, poultry, fish, and vegetables
- Preparing juicy and flavorful dishes
- Reducing the use of fats during roasting
- Preserving natural juices and flavors of food
- Keeping ovens and trays clean
- Ensuring consistent quality of dishes
- Streamlining workflows in high-volume kitchens

**Benefits for the foodservice industry: cleanliness, time savings, high-quality finished dishes**

## Retail Customers / Supermarket Chains

### **A convenient solution for home cooking:**

- Roasting meats, poultry, and vegetables without burning
- Preparing dishes without added fats
- Retaining the juiciness and aroma of meals
- Easy cleanup after baking
- Ideal for beginners and busy home cooks

**Why customers buy: simplicity, healthy cooking, and consistently successful results**

# viGO! Baking sleeve 30 m 29 cm

| STOCK NUMBER | NAME                              | UNITS PER CARTON | UNIT EAN      |

# ZIPPER BAGS

## HoReCa Sector

### **ZIP zipper bags are a practical tool in professional kitchens:**

- Portioning and storing dry and liquid products
- Securing semi-prepared ingredients and ready meals in refrigerators and freezers
- Packaging snacks, sauces, marinades, and condiments
- Organizing the kitchen and facilitating teamwork
- Protecting food from moisture, odors, and contamination
- Easing transport of prepared dishes or products

**Benefits for the foodservice industry: hygiene, fast organization, space and time savings**

## Retail Customers / Supermarket Chains

### **Ideal for everyday home use:**

- Storing leftovers and sandwiches
- Portioning dry goods, fruits, and vegetables
- Freezing meat, fish, and vegetables
- Protecting food from moisture and loss of freshness
- Convenient packaging for travel or lunchboxes
- Keeping pantries and refrigerators organized

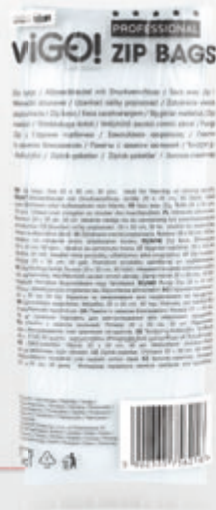

**Why customers buy: convenience, multifunctionality, and everyday practicality**

# viGO! Zipper bags 20 x 30 cm 30 pcs

| STOCK NUMBER | NAME                                  | UNITS PER CARTON | UNIT EAN      |

viGO! Professional Paper Cups are a practical solution for the food service industry, catering companies, and event organizers, providing convenient beverage serving while ensuring high functionality and user comfort.

## Key Product Features:

- Designed for the HoReCa sector – ideal for use in restaurants, hotels, bars, cafés, catering services, as well as outdoor events and special occasions.
- Made from certified cellulose pulp – the cups are manufactured from bleached cellulose pulp sourced from responsibly managed forests and certified by FSC. The water-based coating enhances leak resistance and helps protect the cup from soaking through.
- An alternative to PE-coated cups – designed as an alternative to traditional paper cups coated with polyethylene (PE).
- Suitable for paper material recovery systems – the disposal and recovery of used cups depend on local waste sorting regulations and the available waste processing infrastructure.
- Durable and leak-resistant – suitable for serving both hot and cold beverages.
- Do not affect the sensory properties of beverages – help preserve the taste and aroma of served drinks.
- Versatile application – ideal for barbecues, picnics, trips, outdoor events, and everyday use in food service and catering operations.

viGO! Paper Cups are a functional solution designed for convenient beverage serving in both professional food service environments and individual catering applications.

viGO! Professional Latex Gloves are a practical solution designed to provide comfort and convenience during everyday tasks in food service, hospitality, service industries, and household environments.

## Key Product Features:

- Versatile application – suitable for use in food service, catering, hospitality, service salons, and a wide range of everyday household tasks.
- Made from natural latex – flexible and form-fitting, providing a comfortable fit and allowing for ease of movement during use.
- Help reduce direct hand contact with dirt and moisture while performing everyday tasks.
- Powdered interior – makes the gloves easier to put on and remove while enhancing user comfort.
- Comfortable fit – supports precise handling and dexterity, including when working with delicate items such as glassware and porcelain.
- Suitable for food contact – can be used during food preparation and serving.
- Useful for a variety of tasks – ideal for cooking, cleaning, dishwashing, housekeeping duties, as well as selected renovation and cosmetic applications.
- Functional packaging – the carton features vertical product communication, making it easier to display and optimize retail shelf space.

viGO! Latex Gloves are a functional solution designed for everyday use in both professional and household applications.
